NOOSA PROPERTY

DOWLING & NEYLAN

SINCE 1976

REAL ESTATE

## Welcome to our Spring edition of inside Noosa Property

Again we are pleased to be showcasing some of Noosa's most unique & exciting properties. The year to date has produced many challenges for the market place in general but Noosa's popularity & overall limited supply hasn't changed.

One of the major stories to unfold this Spring is that the First Light development on the beachfront will commence construction after the Summer holidays. The demolition of the Seahaven Resort will drastically transform Hastings Street & undoubtedly create a level of excitement that will boost the local market & put a greater focus on the Noosa area as a whole. First Light will be Noosa's first 6 star resort bringing with it a level of service and clientele not seen before in Noosa. The new building plan brings with it several new commercial premises & will significantly improve the western end of the street. The retail shops will be level with the street & additional beach access will also be provided.

You may have noticed more auction activity in & around the Noosa area for the Spring holiday period. At Dowling & Neylan we believe in actively promoting selected properties using the auction process. Given the right property & the right circumstance, auctions can be a truly effective way of marketing & selling real estate in any market conditions. We are pleased to announce the appointment of our new Chief Auctioneer Peter Burgin who has recently been awarded Queensland Auctioneer of the year by the Real Estate Institute of Queensland. With this appointment, along with our existing team of talented sales people & auctioneers we will continue to provide the same high level service as we have over the past 30 years. Whether your property is marketed by private sale or under the auction banner you can be confident you're in the very best hands.

Looking forward to the later part of 2010 our Noosa market is likely to remain fairly steady. The opportunity to secure a property in a prime location will certainly become more difficult & as the variety of choice tightens up so too will the ability to buy at today's pricing levels. There have been a number of recent sales creating new record prices in some areas, another sure sign the market is already gaining pace & building momentum.

We look forward to seeing you out & about as the ideal Spring weather returns to Noosa.

Kind regards,  
Dan Neylan
